

Uniform Residential Appraisal Report

Case No.

File # SB-VA-4443TRA

The purpose of this summary appraisal report is to provide the lender/client with an accurate, and adequately supported, opinion of the market value of the subject property.

Property Address 152 ROBIN CT City GALT State CA Zip Code 95632-2346
 Borrower Ronald Regan Owner of Public Record Ronald and Nancy Regan County SACRAMENTO
 Legal Description Quail Hollow 01 Amd LOT 16
 Assessor's Parcel # 148-0410-016-0000 Tax Year 2010 R.E. Taxes \$ 1,692
 Neighborhood Name QUAIL HOLLOW Map Reference 419-D6 Census Tract 0095.02
 Occupant ☒ Owner ☐ Tenant ☐ Vacant Special Assessments \$0 ☐ PUD HOA \$0 ☐ per year ☐ per month
 Property Rights Appraised ☒ Fee Simple ☐ Leasehold ☐ Other (describe)
 Assignment Type ☐ Purchase Transaction ☒ Refinance Transaction ☐ Other (describe)
 Lender/Client Finance Corp/Dept of Veterans Affairs Address 000 Front Street Anywhere, OH 43215
 Is the subject property currently offered for sale or has it been offered for sale in the twelve months prior to the effective date of this appraisal? ☐ Yes ☒ No
 Report data source(s) used, offering price(s), and date(s). NO LISTINGS PER MLS.

I ☐ did ☐ did not analyze the contract for sale for the subject purchase transaction. Explain the results of the analysis of the contract for sale or why the analysis was not performed.

Contract Price \$ Date of Contract Is the property seller the owner of public record? ☐ Yes ☐ No Data Source(s)
 Is there any financial assistance (loan charges, sale concessions, gift or downpayment assistance, etc.) to be paid by any party on behalf of the borrower? ☐ Yes ☐ No
 If Yes, report the total dollar amount and describe the items to be paid.

Note: Race and the racial composition of the neighborhood are not appraisal factors.

Neighborhood Characteristics		One-Unit Housing Trends		One-Unit Housing		Present Land Use %

Neighborhood Description The subject property (S/P) immediate NBHD is mostly made up of 1980's-90's Avg to good quality ranch/tract residences in mostly avg to good condition. All services, employment centers, and schools are within in reasonable distances to the S/P. The S/P NBHD is known as Quail Hollow and is noted for it's relatively newer housing stock and proximity to highway 99.

Market Conditions (including support for the above conclusions) Prices peaked in late 2005. Current prices have decreased since 2005, with signs of recent stability. Concessions, REO listings & short sales exist in the market. Currently, DOM for property prices homes is 1-3 months. Short sales and REO sales typically sell for lower than non-lender involved sales. See 1004MC FORM.

Indicated Value by: Sales Comparison Approach \$200,000

Cost Approach (if developed) \$204,870

Income Approach (if developed) \$

SEE ATTACHED ADDENDUM FOR FINAL RECONCILIATION.

This appraisal is made ☒ "as is", ☐ subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, ☐ subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or ☐ subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair.

SEE ATTACHED ADDENDUM FOR STATEMENT OF LIMITING CONDITIONS AND SCOPE OF WORK.

Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is \$ 200,000, as of 12/18/2010, which is the date of inspection and the effective date of this appraisal.

SEE ATTACHED NARRATIVE ADDENDUM AND SCOPE OF THE APPRAISAL FOR ADDITIONAL COMMENTS.

ADDITIONAL
COMMENTS

COST APPROACH TO VALUE (not required by Fannie Mae)

Provide adequate information for the lender/client to replicate the below cost figures and calculations.

Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value) SITE VALUE IS DERIVED FROM ABSTRACTION AS FEW LAND SALES EXIST. SITE VALUE MAY APPEAR LOW. HOWEVER IT REFLECTS THE LIMITED DEMAND FOR VACANT LOTS GIVEN THE HIGH INVENTORY OF EXISTING SF FOR SALE. ALSO, IT REFLECTS THE FACT THAT THE COST OF CONSTRUCTION INCLUDING PERMITS/ETC, IS HIGHER THAN WHAT A DEVELOPER COULD SELL THE FINISHED HOME FOR. SEE FUNCT. OBS ADJ.

ESTIMATED ☐ REPRODUCTION OR ☒ REPLACEMENT COST NEW

Describe common elements and recreational facilities

Uniform Residential Appraisal Report

Case No.
File # SB-VA-4443TRA

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.
